EMERGENCY FOOD NETWORK HONORS CASCADE REGIONAL BLOOD SERVICES

The Emergency Food Network recognized Cascade Regional Blood Services today for its continued support. The Emergency Food Network is responsible for getting food to nearly 100,000 people in need each month.

Charles Drummond accepted the award and thanked Emergency Food Network's Executive Director, David Ottey, for the successful partnership the two not-for-profits have enjoyed over the past five years. The blood center helps raise awareness and collect food over the holiday months by placing billboard advertising around Pierce County. The billboard messages encourage the public to remember to donate food or blood, the two essential items that are always in need. Food donations are accepted at all blood donation centers and on all of the bloodmobiles.

Call 1-877-24BLOOD to make an appointment to donate blood or stop at one of our locations. Check our [website](#) for bloodmobiles in your area.
