

Please give one more gift over the holidays, the *gift of life!*

Infant heart surgeries can require up to eight pints of blood (or eight donations) for each procedure.

During the upcoming holidays, high school and college students are on break and donations drop by up to 25%; hospitals' need for blood *remains constant*.

Here's how you can help:

1. Continue to support *your community blood center* - donate every 56 days
2. Bring a friend, neighbor or relative to donate
3. Volunteer to host a blood drive at your work, neighborhood or church
